

STRAWBERRIES

ANTI-STRESS 550® is a non-toxic, biodegradable, water-based polymer concentrate. Applied as a foliar spray, Anti-Stress 550® creates a unique semi-permeable, elastic membrane that reduces moisture loss and insulates plants.

Benefits of **ANTI-STRESS 550®** on Strawberries

- Improves tolerance to harsh environmental conditions such as heat, wind and frost.
- Reduces damage to plant tissue, including buds and blooms during frost and freeze events.
- Allows for normal stomatic activity and does not interfere with photosynthesis.
- Allows for unrestricted plant growth permitting leaf and plant flexibility.

Application of **ANTI-STRESS 550®**

- A 1% - 5% solution of Anti-Stress 550® should be applied (1 – 5 gallons of Anti-Stress 550®/100 gallons of water).
- Anti-Stress 550® is a foliar spray that may be applied with most types of conventional farm, orchard or ground spray equipment.
- Critical Application Times: At leaf development, late bud/early flower stage, and fruit set as needed.
- Application is effective for 30 – 45 days. Will not wash off with normal rainfall or overhead irrigation.
- Sufficient spray pressure/volume must be used to dispense Anti-Stress 550® over and throughout the entire plant surface.

Available in 2.5 gallon containers, 30 & 55 gallon drums, and 250 & 275 gallon totes.

Pesticide use permit not required / Applicators License not required
Anti-Stress 550® is exempt from reporting by California requirements
Not a Pesticide
