

STONE FRUIT

ANTI-STRESS 550[®] is a non-toxic, biodegradable, water-based polymer coating which creates an elastic membrane that reduces moisture loss in plants.

Benefits of applying **ANTI-STRESS 550[®]** to Stone Fruit:

- Reduces damage to buds, blooms and fruit during periods of frost and freeze, high heat/water stress or wind.
- Will not inhibit pollination.
- Allows for normal stomatic activity and does not interfere with photosynthesis.
- Allows for unrestricted plant growth permitting leaf and plant flexibility.

Application of **ANTI-STRESS 550[®]**:

- A 1% - 5% solution of Anti-Stress 550[®] should be applied (1-5 gallons of Anti-Stress 550[®]/100 gallons of water).
- Apply as needed at budburst, after petal fall and fruit set, or during growing stages.
- Anti-Stress 550[®] may be applied with most types of conventional farm, orchard or ground spray equipment.
- Sufficient spray pressure/volume must be used to dispense Anti-Stress 550[®] over and throughout the entire tree surface.
- Application is effective for 30 - 60 days.

Available in 2.5 gallon containers, 30 & 55 gallon drums, and 275 gallon totes.

Pesticide use permit not required / Applicators License not required
Anti-Stress 550[®] is exempt from reporting by California requirements
Not a Pesticide
