

CHERRIES

ANTI-STRESS 550® is a non-toxic, biodegradable, water-based polymer concentrate. Applied as a foliar spray, Anti-Stress 550® creates a unique semi-permeable, elastic membrane that reduces moisture loss and insulates plants.

Benefits of **ANTI-STRESS 550®** on Cherries

- Reduces splitting or cracking of cherries during exposure to rain or excessive moisture.
- Improves tolerance to frost and freeze by 4° - 6° F.
- Improves tolerance to high heat and harsh environmental conditions.
- Reduces damage to buds and blooms during frost and freeze events.
- Allows for normal stomatic activity and does not interfere with photosynthesis.
- Allows for unrestricted plant growth permitting leaf and plant flexibility.

Application of **ANTI-STRESS 550®**

- 1 - 5 gallons of Anti-Stress 550® should be applied per 100 gallons of water, up to 5%.
- Thorough coverage, in addition to sufficient concentration is critical to reduce splitting/cracking due to rainfall.
- Anti-Stress 550® is a foliar spray that may be applied with most types of conventional farm, orchard or ground spray equipment.
- Critical Application Times: Just prior to or at straw stage to reduce cracking/ splitting; post-harvest application for heat tolerance.
- Application is effective for 30 - 45 days. Will not wash off with normal rainfall.
- Sufficient spray pressure/volume must be used to dispense Anti-Stress 550® over and throughout the entire plant surface.

Available in 2.5 gallon containers, 30 & 55 gallon drums, and 250 & 275 gallon totes.

Pesticide use permit not required / Applicators License not required
Anti-Stress 550® is exempt from reporting by California requirements

Not a Pesticide
